## To Receive a Flu Vaccination

- You should not have an active infection or be on any antibiotics.
- You should not be allergic to eggs, thimerosal, gentamicin, or other aminoglycosides.
- Pregnant women **MUST** have a written prescription from her doctor.
- Medicare Part B recipients must have Medicare as their primary insurer in order to receive the vaccination at no charge.

**DON'T GET THE FLU. DON'T SPREAD THE FLU.  
GET VACCINATED.**
